Step 4: Determine Cardinality and Participation

Specify whether relationships are one-to-one, one-to-many, or many-to-many, and whether participation is optional or mandatory.

Step 5: Create the ER Diagram

Using diagramming tools, draw entities as rectangles, attributes as ovals, and relationships as diamonds connecting entities. Use appropriate notation to indicate cardinalities.

Example ER Diagram Diagram Components

- Entities: Rectangles labeled as Students, Employees, Products, etc.
- Attributes: Ovals connected to respective entities
- Relationships: Diamonds like "Purchases," "Supplies," connected with lines
